

On 5/9/08, Defenders of Wildlife Action Fund incorrectly filed a series of Independent Expenditures as a 24 hour report - FEC-337865. On 5/12/08, this report was amended to be a 48 hour report instead - FEC-338064. The content of the original report was correct, only the reporting period needed to be amended.

During the process of amending the original report, the content was wiped and a blank 48 hour form (338064) was filed as an amendment by mistake.

Our FEC analyst advised that we file this miscellaneous document in order to confirm that the financial content of the original form is correct. However, it should be filed as a 48 hour report, as reflected in the 5/12 amendment, which although correct in status does not contain the financial information from the original report.
